966LCD

USER MANUAL

Congratulations on your selection of the **966LCD** Cordless
telephone from
CHINCOWELL Phone. This quality 46/49 MHz Cordless
telephone, like all chinwell Products, has been designed to give you
many years continuous service,And represents the best value for
your money. It reuires little mainte
nance   and is easy to setup and operate.

Chincowell Co., Ltd.

Installation

1. The handset
   Open the battery cover and mount the battery in it. Cover the battery and screw the antenna into the handset.

2. Handset charger
   Insert the AC. connector of the adapter (Input AC 110V/220V, Output DC 9V) into the power socket, and the output connector to the socket of the handset charger.

3. The Base
   Connect the receiver handset and the Base with the curled cable. Insert the telephone wire into the line socket of the Base.

4. Power for the Base set
   Connect the telephone line first. Plug the adapter into the power socket of 110V. Plug the DC. connector into the socket of the Base set. The indicator should be on.

Note: The phone set has its own battery an adapter specified for use.
         Do not use any others products to use in here without specified.

Points to be noticed

1. Do not put the cordless under direct sunlight, Keep it away from the damp place.
2. Do not let the Base set and the antenna get close to devices such as : The microwave oven, TV set, computer etc.
3. Make sure the suitable power source of AC 110/220V for the cordless set.
4. The adapter used by the cordless set is DC 9V (with a Filter capacitor inside).
   Do not replace it at all. If the adapter breaks down, contact us for a new one.
   Incorrect adapter may lead to abnormal current and breakdowns.
5. If dust occur on the surface of the cordless set, do not clean it with organic solvents such as toluene, petrol etc. In case the case is eroded. If the surface needs cleaning, use a dry cloth, dab wax on it, and wipe dust away.
6. If you want to take out the adapter, hold it tight first, and then take it out with care. Do not take it by pulling the wire.
7. Do not put the cordless set in high places in case it falls down and gets precision parts damaged. If you have any trouble with it, please sent your cordless set to the distributor or the servicing center.
• Do not disengage the cordless set by yourself. The warranty may be null and void if disengagement by user exists.
