Dale Reynolds
Professional Testing Inc

In reference to FCC NBI-SM-SPTX100

Mr. Reynolds

Upon reviewing the referenced test report FCC ID: NBI-SM-SPTX100, additional information is needed before the review can be completed. Please provide the requested data as soon as possible to complete the review.

- 1) Please submit the compliance statements for the manual.
- 2) The testing for the radiated limits below 30 MHz was done with an active rod antenna per set up drawings and data submitted. Data taken below 30 MHz must be done with a Loop antenna per FCC. Please see attached information from the FCC.

David A. Case NCE
Examining Engineer

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
