25 April 2005

To Whom It May Concern:

**PURPOSE OF CHANGE LETTER**  
**For Model MD45X**

This letter is to provide additional information regarding the Application of Permissive Change for our model MD45X based on the previously certified model MD47X (base) and MD49X (handset).

The Handset and Base RF modules as well as the antenna of the above-mentioned models are identical in, construction, dimensions, and electrical circuits.

The main difference is the new RF shield can for MD45X (base and handset). In addition, model MD45X is without the speakerphone, LCD and dialing keypad compared with MD47X base. Based on this change of the RF shield can, it does not affect any RF characteristic of transmitter.

All design including electronic, electrical, mechanical, and cosmetics designs remain the same except the above-mentioned change.

The above-mentioned change is not intended for maximum power and change on field strength ratings.

Should you have any query, please don't hesitate to contact the undersigned.

Your Faithfully,

Ronilo Paredes  
Senior Approval Engineer
