Question #1: Please revise FCC ID label format. It shows FCC logo ahead of ID, not using "FCC ID", which is not acceptable. You may put FCC logo separately on the label, but can not replace "FCC" with FCC logo.

Ans:[Please find the updated file for ID label format\(1222\)](#).

Question #2: The schematics show Bluetooth chip BC213159A, but the operational description shows BC215159A. Please explain.

Ans:[Please find the updated file for Circuit diagram\(1222\)](#).

Question #3: The user manual specified 20cm separation distance between end user and the device should be maintained, which is not applicable in this case. Please remove this statement.

Ans:[Please find the updated file for User manual\(1222\)](#).
