

Federal Communications Commission
7435 Oakland Mills Road
Columbia, MD 21046

Date: February 29, 2012
FCC ID: NKR-DNMA-92

Gentlemen:

For Our AP120 product:

In mesh function, both peers are acting as DFS master devices: doing channel available check (CAC) independently, and doing in service radar detection and the associated channel switches independently

Sincerely,

A handwritten signature in black ink that reads "Serdar Ergene". The signature is written in a cursive, flowing style.
