

Technical Description

- Q1 Transistor for RF oscillation with frequency of 27.125MHz
- Q2 Transistor for RF Enable
- Q3 Transistor for RF power amp which provide the RF output (for Q1~3)
- Q4~Q5 Transistor for Power control purpose
- Q6~Q11 for Step down control which give the Light output
- U1 IC CD40174 for logic control
- LED1~6 for STATUS indication

RF Hair Remover Block Diagram

STATUS indication
LED 1~6
