

ET-SR Single Module Reader

Specifications

Power Requirements:		14VDC, Avg. 200 mA, 5V optional
Indicators:	LED Buzzer	Tri-Color (Blue/Red/Green), optional Host Activated, optional
Inputs/Outputs:	Open Collector Rating Solid State Relay Inputs 1-4	20VDC @ 300 mA, optional 60V max. – 1.0A AC/DC Ground to Activate, optional
Environment:	Ambient Temperature Humidity	-40° to +70° C (-40° to +158° F) 0 to 100% (non-condensing)
Communications:	RS-485	Host Driven Protocol

(1) Single Module Reader

Instruction to the User

FCC ID: NNHMETS

“This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and;
- (2) This device must accept any interference received, including interference that may cause undesired operation.”

This equipment has been tested and found to comply with the limits for a class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- * Reorient or relocate the receiving antenna.
- * Increase the separation between the equipment and receiver.
- * Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- * Consult the dealer or an experienced radio/TV technician for help.

In order to maintain compliance with FCC regulations, shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio and TV reception. The user is cautioned that changes and modifications made to the equipment without the approval of the manufacturer could void the user's authority to operate this equipment.
