Hi Helen,
Answer#1, pls find the attached revised circuit diagram.
Answer#2, pls find the attached revised user manual.
Thank you to correct us the missing frequency range.

Best Regards,

Iris Lin

NO.: AN05T4853, Notice#1

Question #1: The user manual does not contain user information as
specified
in 15.21. Please revise the user manual.

Question #2: Page 2 & 4 of the schematics are almost identical to page 1
& 3,
but with all the component values removed. Please remove page 2 & 4 from
the
schematics.

Question #3: This is for your information, please always fill in
operational
frequency range, not the frequency band, i.e., please do not fill in
2400-2483.5MHz, please fill in 2414-2468MHz for this application.

Best Regards,
Helen Zhao

The items indicated above must be submitted before processing can
continue
on the above referenced application. Failure to provide the requested
information within 30 days of the original e-mail date may result in

application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be directed to the e-mail address listed below the name of the sender.
