Instructions for operation of
R/C Power Pack
Multiple car radio control system

The R/C Power Pack is the first fully modular Radio Control car system that allows you to choose which vehicle you wish to energize. The advanced Full Radio function technology pack is easily swapped between different car body styles in seconds. Follow these instructions carefully and keep them in a safe place for future reference.

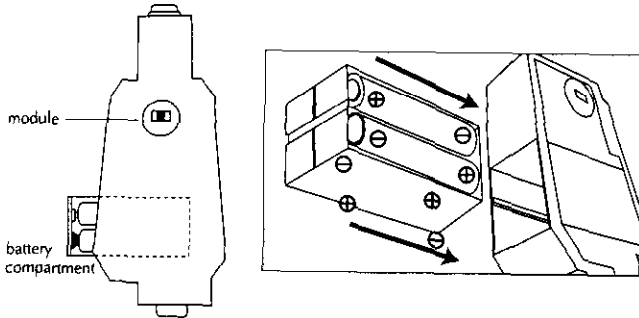

General Part description

Initial Set up:

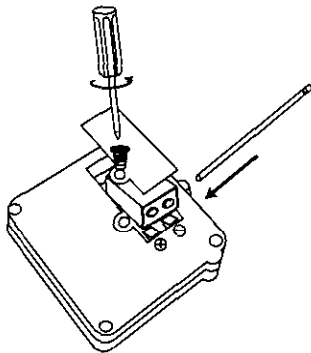

Car Pack

Remove the battery compartment by sliding the battery holder out the side of the module.
Install 4 AAA batteries.
