Re: Technical Justification Letter Pertaining to FCCID: NSNTPTRACKER

Gentlemen:

This is to justify this Zigbee (802.15.4) 2.4 GHz + CDMA2000(850MHz/1900MHz) tracking module, Model Name: TP-TRACKER is installed in a portable host locating device. There is no change on the module hardware. The zigbee radio is using an integral antenna, which is same as the original certification. The CDMA radio that used in the portable host is the same antenna type as the previous with less gain by comparing to the certified antennas included in the original modular approval, and output power remains unchanged; Therefore EMC tests are not performed.

If you have any questions regarding this application, please feel free to contact me at 604-576-8658.

Sincerely yours,

A handwritten signature in black ink, appearing to read 'Steve Rosset', written over a horizontal line.
