

SETUP PHOTOGRAPHS

This document contains 4 photographs

Photograph No.1
Setup for spurious emission measurements in the anechoic chamber below 30 MHz

Photograph No.2
Setup for OBW, carrier field strength and spurious emission measurements in the anechoic chamber below 1000 MHz

Photograph No.3
Setup for OBW, peak output power and spurious emission measurements in the anechoic chamber
below 1000 MHz, EUT close view

Photograph No.4
Setup for spurious emission measurements in the anechoic chamber above 1000 MHz
