PRECAUTION/IMPORTANT NOTICE

- Use the luminaire in a dry place :do not cover
The electronic switch is very sensitive and can activate spontaneously in extreme heat or humidity. Therefore avoid contact with wet towels and/or paper and do not use thermal blankets or heaters close to the luminaire.
- Disconnecting the plug
When disconnecting the plug from the power supply socket, pull the plug gently out . Do not pull the cord.
- Radio interference
Like other electronic equipment, the luminaire may react and cause disturbance to radio reception. Avoid using the luminaire close to the radio.
- Do not use for ambience temperature over 35 °C
This luminaire has a safety fuse which prevents overheating. Operating temperature is from 5-35 °C. If the room temperature exceeds 35 °C, the luminaire will automatically switch off.
- Keep the lamp shade in horizontal position
Avoid staring directly on the lamp when in use as it can cause discomfort to your eyes.
- Do not use strong chemical detergent
sprays to clean the luminaire as they may cause discolouration.
