I. Profile and Its Function

I-1 Profile (Fig.1)

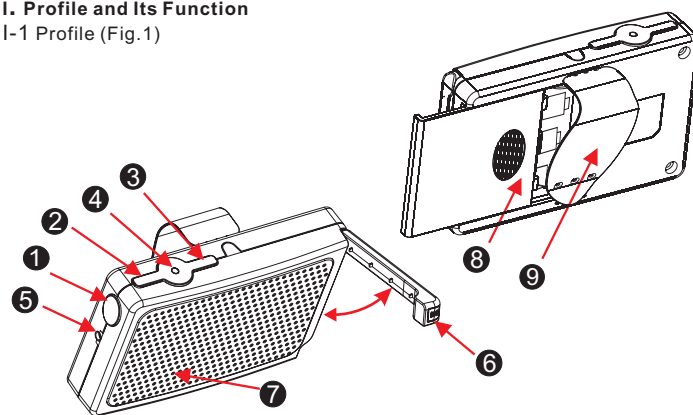

Fig. 1

- | | |
|---------------------|------------------------|
| 1. On/Off (S1) | 6. Foldable Microphone |
| 2. Volume Up (S2) | 7. Speaker |
| 3. Volume Down (S3) | 8. Battery Door |
| 4. LED | 9. Visor Clip |
| 5. DC Socket | |

I-2 Function (please refer to Fig.1)

I-2-1 On/Off (S1)

If you press S1, you can:

- ⊙ Switch on and Off
- ⊙ Pair
- ⊙ Answer a new call
- ⊙ Reject a call
- ⊙ Make a new call using voice dialing

I-2-2 Volume Up (S2)

- ⊙ Increase the speaker volume
- ⊙ To mute/un-mute the microphone

I-2-3 Volume Down (S3)

- ⊙ Redial the last dialed number
- ⊙ Decrease the speaker volume

I-2-4 LED

There are two LED colors (green and red) to indicate the state of this Car-Kit.

I-2-5 DC Socket

It serves as a recharging power socket.

I-2-6 Foldable Microphone

You can adjust this microphone to an appropriate angle to receive a quality voice.

I-2-7 Speaker

I-2-8 Battery Door

Charge your rechargeable battery with a car charger without loading/unloading any battery.

I-2-9 Visor Clip

Clip the hands-free Car Kit under your car's sun visor.

II. How to Use (e.g. Nokia 3650 or equivalent models)

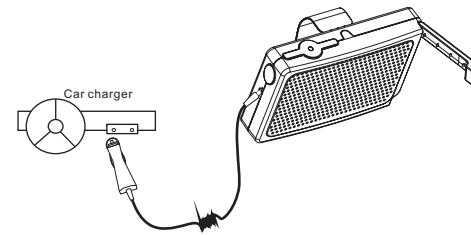

Fig. 2

II-1 Charge the Batteries (please refer to Fig. 2)

Thank you for buying the Abe BT 77V, Bluetooth Hands-free Car Kit. Before you use for the first time, please charge the batteries for 6 hours. After the first time, you can fully charge your low batteries in 3 hours.

Warning: Use only rechargeable batteries.

II-2 Turn on the Hands-free Car Kit

If the Hands-free Car Kit is powered off, press and hold S1 for 4 seconds. A low tone followed by a high tone will indicate the hands-free Car Kit has turned on. At the same time, Green LED will flash for a second. And then, green LED will keep on flashing every 3 seconds.

II-3 Pair the Hands-free Car kit with Your Bluetooth Mobile Phone

II-3-1 Put the hands-free Car Kit in pairing mode

When the hands-free Car kit is powered off, press and hold S1 for 8 seconds. In the first 4 seconds, a low tone followed by a high tone will indicate the hands-free Car Kit has turned on. At the same time, Green LED will flash for a second. In the 2nd 4 seconds, a high tone will occur. Then the red and green LEDs will flash alternately, which indicates the hands-free Car Kit has entered into the pairing mode.

Notice: Make Sure the batteries are fully charged.

II-3-2 Put your Bluetooth mobile phone in pairing mode

II-3-2-1 Follow the operation manual of your Bluetooth mobile phone to start the pairing process. Typically, this has to be done by going to a setup or connect menu and then selecting the options to discover Bluetooth devices. Bluetooth may take several seconds to establish a connection.

II-3-2-2 Your phone's display will indicate that it has found the new device "BT 77V" and asks if you want to pair it. You should confirm this. The phone's display would demand a passkey or PIN, then you can enter a sequence of "0000".

II-3-3 Pair the hands-free Car Kit with your Bluetooth mobile phone

The green LED of hands-free Car Kit will flash every 3 seconds indicating successful pairing. Usually the phone will also ask whether you want to change the Car Kit's name. We recommend you should approve the name of "BT 77V" and do not change it.

Notice: Make sure if pairing does not occur as expected, turn off the hands-free Car Kit and your phone, then wait for 10 seconds. Turn on them again and repeat from Step 3-1 to Step 3-3.

II-4 Establish Bluetooth Link

After pairing, the mobile phone will show "connect", then please select "YES" to establish the link. Now you are ready to make and answer calls on the hands-free Car Kit.

Notice: For other phones, please follow their operation manuals to establish the link!

II-5 Clip the Hands-free Car Kit onto Your Sun Visor (Please refer to Fig. 3)

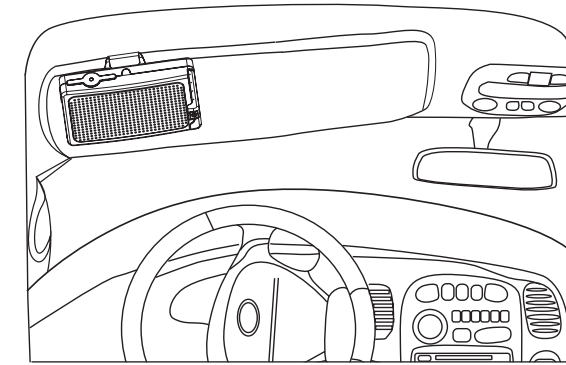

Fig. 3

II-6 Answer an Incoming Call

When an incoming call is present, the hands-free Car Kit will ring. Press S1 and you can answer the call. The green LED will continue to flash once a second while the call is in session.

II-7 Transfer Calls between This Hands-free Car Kit and Your Bluetooth Phone

When you are in session, calls can be transferred from your Bluetooth phone to the hands-free Car Kit and vice versa.

V-7-1 From Bluetooth phone to the Car Kit

Press S1 once, the call will be transferred to the Car Kit.

V-7-2 From Car Kit to the Bluetooth Phone

Please follow the operation manual of your phone.

II-8 Make a New Call by Using Voice Dialing

II-8-1 When using a Bluetooth mobile phone:

II-8-1-1 Press S1 on the hands-free Car Kit shortly.

Notice: Make sure that the voice dialing function is probably set up in the mobile phone and it is within the range of the hands-free Car Kit.

II-8-1-2 Put through the call

After the beep tone on the hands-free Car Kit, you can make a voice dial by saying the name of the person on the hands-free Car Kit. The call will be connected in a few seconds.

II-8-2 When using a mobile phone without Bluetooth built-in and requiring a Bluetooth dongle:

II-8-2-1 Press S1 on the hands-free Car Kit shortly

Notice: Make sure that the voice dialing function is probably set up in the Mobile phone and it is within the range of the hands-free Car Kit.

II-8-2-2 Put through the call

After the beep tone on the hands-free Car Kit, you can make a voice dial and the call will be connected in a few seconds.

II-9 Mute the Microphone

II-9-1 To mute a microphone during an active call

Press S2 for about 2 seconds and a beep tone will indicate the microphone is muted. A periodic beep tone will be heard while the mute function is active.

II-9-2 To un-mute a call

When the microphone is muted, press S2 for about 2 seconds. Then the mute function will end and the periodic beep tone will stop.

II-10 End a Call

While a call is in session on the hands-free Car Kit, press S1 and you will disconnect the call. After the call is disconnected, the green LED will flash normally.

II-11 Reject a Call

When the hands-free Car Kit is ringing, press S1 until you hear a long beep tone.

II-12 Redial Last Dialed Number

To redial the last dialed number, press S3 for 2 seconds. Short low tones will indicate an attempt to redial.

II-13 Adjust the Speaker Volume

While a call is in session, pressing and releasing S2 will increase the speaker volume, and pressing and releasing S3 will decrease the speaker volume.

II-14 Recharge the Low Batteries (please refer to Fig.2)

The LED of this Car Kit will flash red instead of green when the battery are low. There will also be a short beep every 2 minutes. Please connect the charger cable to the Car Kit.

II-14-1 During recharging

The LED shows a steady red light if the Car Kit is off, and the red light will dim once every second while the Car Kit is on.

II-14-2 Fully charge

When the batteries are fully charged, the red and green LED will be exchanged.

A steady green LED represents the Car Kit is off and fully charged.

And a green LED dims once every 3 seconds represents the Car Kit is on and fully charged.

Notice: When the battery level is too low, the hands-free Car Kit will automatically power off. It cannot be powered on again unless the batteries are charged after 5 minutes.

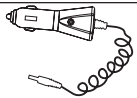

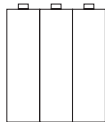

II-15 Turn off the Hands-free Car Kit

When the hands-free Car Kit is on, press and hold S1 for 3 seconds. A high tone followed by a low tone will indicate that the Car Kit is powered off. Red LED will turn on for a second. At last LED will turn off when the Car Kit is powered off.

III. Maintenance and Safe Use

- ⊙ Use dry cloth to clean hands-free Car Kit!
- ⊙ Recycle the batteries after their life time!
- ⊙ Do not expose the Car Kit to liquid or moisture!
- ⊙ Do not expose the Car Kit to fire or open flames!

IV. Package Contents

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

IMPORTANT NOTE:

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
