Re: Transfer Type 1 Whisper Radio (BSC , BSR and BSM) from Diablo FCC code to Whisper FCC Code

To whom it may concern:

Whisper will not modify the product(s) electrically or mechanically and that Whisper will be using all documentation that was certified with Diablo with the only changes being using the Whisper name instead of Diablo.

Diablo code: LVHBSC1000

Whisper Code: NVCBSC1000

Sincerely,

Whisper Communications
