May 9, 2000

Federal Communications Commission;

I wish to obtain my own FCC ID, NVD980310GMT1, for a Part 15 certified transmitter that I am currently purchasing and using in my product the "Securi-Trim" system. The certified transmitter's current FCC ID is J5523518T1 and is manufactured by Delta Vehicle Security of California. Delta has no objection to the acquisition of my own FCC ID number.

I will make no electrical alterations to the transmitter or affect its performance in any way. I will repackage the transmitter circuit board inside my own plastic waterproof key fob case. My case is essentially identical to Delta's original design except mine is waterproof and Delta's case is not.

Sincerely,

Greg Marsh  
President  
Omni Control Systems
