

A black, rectangular electronic device, likely a portable power supply or amplifier, is shown against a black background. The device has a carrying handle on the left side. On the right side, there are two large circular connectors (possibly for power or signal) and a smaller circular connector. A label on the right side contains the following text: "THIS DEVICE IS COVERED BY A PATENT OF THE UNITED STATES PATENT AND TRADEMARK OFFICE. IT IS THE POLICY OF THE UNITED STATES PATENT AND TRADEMARK OFFICE TO GRANT SUCH PATENTS TO INVENTORS OF NEW AND USEFUL DEVICES." The device is secured with several screws. On the far left, there is a small, dark, rectangular component, possibly a switch or a connector. The overall design is functional and compact.
