

## User manual

This device is a 8 key wireless remoter, use PT2264 IC, and have 6561 types of code, main used for control LED light

### 一、 Specification:

Operation voltage: DC12V/23mA

Working frequency: 433.92Mhz

Standby current: 0mA

Working current: 27mA

Code: PT2264

Transmission distance: >800m(open site and sensitive: -103dbm)

Output watt: <-10dBm

Transmite speed: <10Kbps

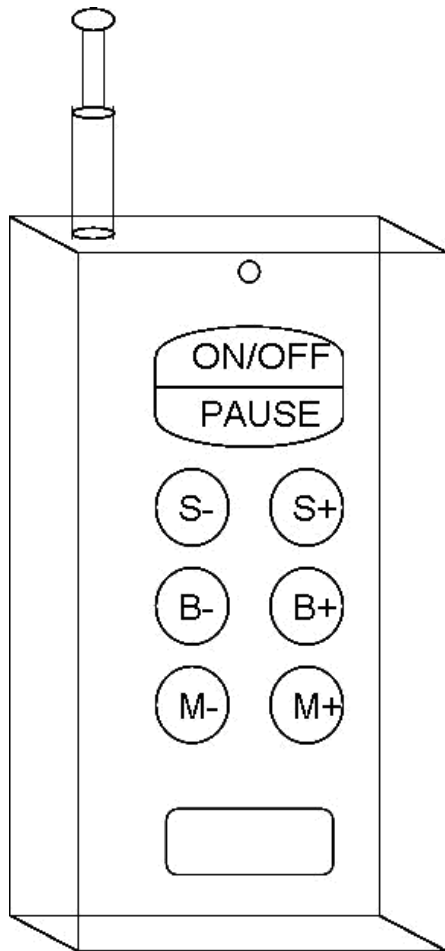

Modulate: OOK (amplitude modulation )

Operation temperature: -10℃ - +70℃

Size: 85\*37\*16mm

Key quantity: eight key
