

Mr. Fujimoto:

In order for processing of this application (FCC ID: NWNMI046) to continue, the following issue(s) will have to be addressed:

- 1) The sample FCC label must be in accordance with 2.925(a)(1) of the FCC rules. The identifier must be preceded by "FCC ID: ".
- 2) Also, in order for the statements contained in 15.19(a)(3) not to be included on the label, the device itself must be smaller than the size of a man's palm. This does not appear to be the case. Please either provide justification for this statement not to be included on the label, or submit a new label with the required information.
- 3) If the statements described in 15.19(a)(3) of the rules are not to be included on the device label, they must be included in the user's manual. If the statements will not be placed on the label, please submit a revised user's manual with the required information, otherwise ignore this item.
- (4) The user's manual infers that alternate antennas may be used with the device. Only the antenna included within this original filing is allowed to be used with the device. Please submit a revised user's manual.
- (5) One of the signatory lines of the test report was unsigned. Please re-submit.

The item(s) indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 60 days of the original e-mail date may result in application dismissal and forfeiture of the filing fee. Also, please note that partial responses increase processing time and should not be submitted. Please upload responses and/or exhibits to the electronic filing website. Your correspondence number is NWNMI046-1.

Correspondence Number	Memo
NWNMI046-1	<p>1) The sample FCC label must be in accordance with 2.925(a)(1) of the FCC rules. The identifier must be preceded by "FCC ID: ". Response: The label has been revised to show "FCC ID:" Please see the uploaded exhibit. 2) Also, in order for the statements contained in 15.19(a)(3) not to be included on the label, the device itself must be smaller than the size of a man's palm. This does not appear to be the case. Please either provide justification for this statement not to be included on the label, or submit a new label with the required information. Response: A photograph has been shown that the device is smaller than the size of a man's palm. 3) If the statements described in 15.19(a)(3) of the rules are not to be included on the device label, they must be included in the user's manual. If the statements will not be placed on the label, please submit a revised user's manual with the required information, otherwise ignore this item. Response: The owner's manual has been revised to include these statements. (4) The user's manual infers that alternate antennas may be used with the device. Only the antenna included within this original filing is allowed to be used with the device. Please submit a revised user's manual. Response: The owner's manual has been revised to drop any inferences</p>

**about using alternative antennas. (5)
One of the signatory lines of the test
report was unsigned. Please re-
submit. Response: The test report
has been signed and reuploaded.**
