Subject              Schematic Diagrams and Block Diagrams.

FCC ID: NWQSC98V1

Gentlemen,

Due to the fact that this RF Module is purchased from a third party (Micrilor), schematics and the block diagram were not made available to Compatible Electronics or Stunner Corporation. Upon request from the FCC, Micrilor has agreed to send this information directly to the FCC.

This; however, may not be necessary, since this RF Module is already approved as a stand-alone unit under FCC ID: LNZ-TR1222A. Perhaps you can obtain the schematics and block diagram from that application. If not, please let me know, and I will be more than happy to have Micrilor send the information directly to you.

If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in black ink, appearing to read "Scott McCutchan".
