

Telecommunications Certification Body

Declaration of Compliance to RF Exposure Limits for Humans

The 3000 Control Console and 9000 Collar and 5000 Indoor Zone Control and 6000 Outdoor Zone Control for pet containment system complies with the RF exposure limits for humans as called out in FCC Part 2 Section 2.1093. The transmitters are used to transmit data relating to pet activity. It is exempt from RF evaluation based on its operating frequency of 916.5 MHz, and output power of 317 microwatts based on  $TP = (FS \times D)^2 / 30 \times 1.64$ ,  $(41686 \text{ uV/m} \times 3)^2 / 30 \times 1.64$ . This would be less than the 200 milliwatt requirement for a portable device.

A handwritten signature in black ink that reads "Joel T. Schneider". The signature is written in a cursive style with a large, stylized 'J' and 'S'.

Declaration of Compliance to RF Exposure Limits for Humans

The 5000 Indoor Zone Control and 6000 Outdoor Zone Control for pet containment system complies with the RF exposure limits for humans as called out in FCC Part 2 Section 2.1093. The transmitters are used to set up an electric fence. It is exempt from RF evaluation based on its operating frequency of 10 kHz, and output power of 365 microwatts based on  $TP = (FS \times D)^2 / 30 \times 1.64$ ,  $(4466 \text{ uV/m} \times 30)^2 / 30 \times 1.64$ . This would be less than the 200 milliwatt requirement for a portable device.
