Internal Photo Exhibit for certification of FCC ID: NX5-GEN3-350CM

The Internal Photo Exhibit of the NX5-GEN3-350CM shows various RF and transmitter electronic components as installed in the complete NX5-GEN3-350CM transmitter assembly.

Baron Services does not manufacture any of the internal RF or transmitter electronic components. All internal components are purchased as off-the-shelf items from other manufacturers. Therefore the Internal Photos Exhibit only shows these components as they are installed in the transmitter chassis. Detailed photos of off-the-shelf components are not provided.
