Subject: Confirmation of channel pairing for FCC ID: NXP-4438E400

To whom it may concern

The Proxima transceiver operates in OFDMA mode with the following transmit / receive channel pairing as per 47CFR27.5(h):

Downlink (transmit) frequency range: 2110 - 2180 MHz

Uplink (receive) frequency range: 1710 – 1780 MHz (paired at "TX-400" MHz)

Yours Sincerely

Charlie Blackham
Director
