ref. 16053

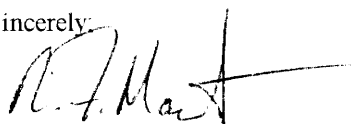

Dear Mr. Dichoso:

In response to your referenced request, a new exhibit has been submitted for your review. The exhibit was prepared by Mr. Shey Hakusui. The test data plot was taken by ITS in Boxborough, MA. The exhibit is labeled Annex B to the original report.

The exhibit presents HXI's explanation of the spectral contents of the digitally modulated carrier that is inherent in the product.

Please review the new exhibit and respond to Mr. Hakusui (with copy to me) with any questions regarding the content of the explanation.

Sincerely,

A handwritten signature in black ink, appearing to read "R. F. Martin", with a long horizontal stroke extending to the right.

Robert F. Martin, P.E.
