This is to certify that based on measurement data and documentation included in this submission for FCC equipment authorization (Form 731), the Telephonics RT-1401B Weather Radar complies with the requirements of the FCC rules and regulations, Part 2 and Part 87, under normal operation with the usual amount of maintenance.

I certify that the attached data was collected and prepared by me and that to the best of my knowledge the facts set forth were obtained by using good engineering practices and are true and correct.
