A photograph of a disassembled smartphone, likely a Samsung Galaxy S20 FE, showing its internal components. The device is laid flat on a blue textured surface. A black ruler with white markings is placed horizontally below the phone, showing a scale from 1 to 4 centimeters. The phone's internal parts are visible, including a large white battery pack, a green logic board with gold-colored connectors, and a camera module. A small white label on the logic board contains a QR code and text: "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000", "K4000 40000". The phone's frame is black, and the back cover is also black.
