

Link•It™ Owner Instruction Manual Version 2.0

Introduction

Thank you for purchasing *Link•It™* from Akoo™. *Link•It™* is a user-friendly portable wireless audio system that lets you enjoy your music collection while on the go.

Link•It™ features Akoo's™ patented Kima Wireless Technology™ to send high-fidelity stereo audio signals from any audio device to any radio or stereo with a range of 10 to 20 feet. Simply plug the *Link•It™* into any audio output source, choose one of the four frequencies that you wish to broadcast to and tune your radio to that frequency. *Link•It™* gives you freedom to enjoy your audio wherever you want, without the wires.

Before You Begin

Read these instructions thoroughly before setting up your *Link•It™*. If you need any assistance, please contact our customer service department at **1-888-566-AKOO** (2566) or submit an e-mail request to **customerservice@akoo.com**

Compatibility

One of the many unique features of *Link•It™* is that it was designed to work with any portable audio device. This means that no matter what brand audio player you may have, *Link•It™* is compatible. Typical uses for *Link•It™* include:

- Portable MP3 digital audio players
- Portable CD Players
- Portable Mini-disc players
- Portable DVD Players

Link•It™ is not only compatible with every audio player, but it will broadcast to any radio or stereo. Whether it is your surround sound stereo system in your living room or your car radio, you are free to just *Link•It™*.

Link•It™ Features & Components

- 1....Power button
- 2....Power LED
- 3....Frequency Selector

- 4....3.5mm stereo cable
- 5....Battery Compartment “AAA”
- 6....Cable Housing

Easy Setup Procedure

Setting up your *Link•It™* is a simple procedure. The steps you should follow are summarized below:

- 1) Pull the stereo jack from the plug in the back of *Link•It™*
- 2) Remove the battery cover from the back of the unit by gently pressing down the tab and pulling out.
- 3) Install 2 “AAA” batteries with the positive end facing down and replace battery cover
- 4) Plug the 3.5mm stereo cable into the audio out connector or the headphone jack of the audio source you wish to transmit.*
- 5) Select the frequency that you wish to transmit to with the selector on the side of *Link•It™* (88.1, 88.3, 88.5 or 88.7 MHz)
- 6) Press the POWER button on the front of the unit (LED will be lit up when powered properly)
- 7) Tune your FM stereo to the corresponding FM frequency as selected in step #5.
- 8) Adjust the volume on your audio player and stereo for maximum enjoyment.

*Some audio sources output level is either too high or too low at the line-out jack. If it is too high, the sound might be distorted. If it is too low, the sound might be too noisy. If this happens, connect the transmitter's plug to the headphone jack and adjust the volume level on your audio device.

Frequently Asked Questions about Link•It™

Q: What is *Link•It™*?

A: *Link•It™* is the newest product offering from Akoo™, a wireless technology company. *Link•It™* is a portable audio transmitter that connects to any audio source and broadcasts that audio to any radio or stereo within 10-20 feet.

Q: What is Akoo™? What other wireless products do you offer?

A: Akoo™ is a wireless technology company that has developed a patented wireless technology known as “Kima Wireless Technology™”. Our first product the *Kima Wireless Audio System™* is a two-unit system that was designed for home use and can transmit audio up to 1,000 feet. It is currently available for sale at www.akoo.com

Q: How can I achieve maximum performance and sound quality from *Link•It™*?

- A: 1) Maintain fresh batteries.
- 2) Turn the *Link•It™* off when not in use.
- 3) Keep *Link•It™* within 10 feet of the radio that it is transmitting to.
- 4) Keep the cord that connects the *Link•It™* to the audio player straight/taut, positioning the player as far from the *Link•It™* as possible.
- 5) Before using the *Link•It™* listen to 88.1, 88.3, 88.5, and 88.7 FM on your radio and use the frequency with the weakest radio station.

Q: Should I connect *Link•It™* to the Audio Output or Headphone Output of my player?

A: It depends on the output level of your source's Audio Output. If you are getting a distorted or noisy sound when connected to the Audio Output try connecting *Link•It™* to the Headphone Output and adjust the volume levels on your source and stereo for maximum enjoyment.

Q: When I press the power button the LED blinks on, then off, yet nothing works, how do I fix this?

A: The flickering on and off of the LED is a low battery indication. Replace both "AAA" batteries and continue normal use.

Warranty Information

Akoo™ provides a 90-day warranty for this product and will promptly repair or replace any product shown to be defective during this warranty period. In order to return a defective product, you must contact Akoo at 1-888-566-2566 to receive a Return Merchandise Authorization (RMA) number. This number **MUST** be displayed on your mailing label. You will also be given instructions on how to package and return the defective unit.

THIS WARRANTY DOES NOT APPLY TO *Link•It™* THAT HAS BEEN DAMAGED AS A RESULT OF IMPROPER MAINTENANCE, ACCIDENTS, IMPROPER VOLTAGE SUPPLY, OR OTHER MISUSE. THE WARRANTY IS ALSO VOID IF THE OWNER REPAIRS OR MODIFIES THE PRODUCT IN ANY WAY. AKOO IS NOT LIABLE FOR ANY INCIDENTAL OR CONSEQUENTIAL DAMAGES WITH REGARD TO THIS PRODUCT. THE WARRANTY EXCLUDES ANY LIABILITY OTHER THAN WHAT IS STATED ABOVE. NO OTHER WARRANTIES ARE GIVEN.

Legal rights vary from state to state. Some states do not allow the exclusion or limitation of incidental or consequential damages, so the above limitations may not apply to you.

Important note: Only use 2 "AAA" batteries as power for *Link•It™*. Use of any other power supply will void this warranty.

FCC Information

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

In order to maintain compliance with FCC regulations shielded cables must be used with this equipment. Operation with non-approved equipment or unshielded cables is likely to result in interference to radio & television reception.

CAUTION: Changes or modifications not expressly approved by Akoo may void the users authority to operate this equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna
- Increase the separation between the equipment and the receiver
- Consult the dealer or an experienced radio/TV technician for help
