

American Telecommunications Certification Body Inc.  
6731 Whittier Ave, McLean, VA 22101

October 1, 2001

RE: Akoo, Inc  
FCC ID: O5UFMLINK

I have the following comments on this Application

- 1.) The FCC has ruled that Internal Photographs do not qualify for Confidentiality status. Please submit a revised Confidentiality letter.
- 2.) Has this equipment been tested in three orthogonal planes as required by ANSI C63.4? If so, it should state so plainly in the test procedure.
- 3.) Occupied bandwidth was taken with only a 1000 Hz tone. Since this is a broadband analog audio device, it is prudent to show Occupied Bandwidth at either the frequency of maximum response or 15 KHz, whichever comes first. The amplitude specified by the manufacturer is satisfactory.
- 4.) Test Setup photos appear to show equipment set up on a plywood tabletop on top of an industrial metal cart. If this is incorrect, please explain.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
