U68B (Keyboards) Introduction

1. Introduction

1.1 Product Briefing

The U68B (Toshiba/Pegatron Arcadia Bluetooth leather cover keyboard) is a Bluetooth keyboard + leather cover.

1.2 BLUETOOTH SPECIFICATIONS

Bluetooth Chip: Broadcom BCM20730

Bluetooth specification version 3.0 compatible.

Bluetooth HID profile version 1.0 compliant.

Bluetooth Radio Power: Class 2 or Class 3 requirements

RF Frequency Range: 2.402 ~ 2.480 GHz

Receive Sensitivity: -84dBm

This keyboard built-in li-ion polymer battery is charged through MicroUSB port.

This device is compatible with Andriod Tablet

The Bluetooth keyboard can support 1 host connection.

1.3 POWER REQUIREMENTS

Battery: 230mAh(minimum 220mAh), Li-on battery

1.4 WEIGHT AND DIMENSIONS

Length: 264.7mm

Width: 184.25mm

Height: 19.8mm

Weight: under 430g

USER MANUAL

1.5 IDENTIFICATION AND MARKING

1. Label

It would be pasted on the lower case to cover the injection point. Please refer to the picture below.

USER MANUAL

FCC ID: O62U68B

FCC Statement:

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

IC: 4356A-U68B

IC Statement:

USER MANUAL

This device complies with Industry Canada license-exempt RSS standard(s).

Operation is subject to the following two conditions: (1) this device may not cause interference, and (2) this device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.
