

ZioCam Driver Ver. 2.6 Installation Method

1. If you ever installed ZioCam before, first of all unplug the ZioCam USB cable connector and then please run “.\RegClean\Uninst.exe” file on the installation CD.
2. Plug the ZioCam USB cable connector into the PC's USB port.
3. “Add New Hardware Wizard” will appear on the screen as follows.

Press [Next] button

4. Press [Next] button, when the below dialog box appears.

5. After insert the “ZioCam Installation Disk” on the CD-ROM Drive, press [Next] button.

6. If “DIGITRA USB Camera Plus” is found, press [Next] button.

7. If you wait for a moment, then the below dialog box will appear. Press [Finish] button to finish installation.

Confirming successful installation

1. Press the “Snapshot button” on the ZioCam
If you see “AMCAP” application on the screen and the video is displayed on it, the installation is successfully finished.
2. When “AMCAP” is running, if you press “Snapshot button” again, you can get the captured still image on the “Still Image Capture” window.
3. If you want to send captured image to another application like an image editor or a word processor, select “Edit” → “Copy” and then “Edit” → “Paste” on the application menu.

Confirming TWAIN driver

1. Run “Start” → “Program” → “Accessories” → “Imaging”/
2. Select “File” → “Select Scanner” on the menu.
3. Select “ZioCam USB Camera Plus” and press [Confirm] button.
4. Select “File” → “Scan New Document” on the menu.
5. If you see “ZioCam USB Camera Plus” window on the screen, the TWAIN driver is successfully installed.

FCC COMPLIANCE STATEMENT:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

INFORMATION TO USER:

This equipment has been tested and found to comply with the limits of a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation; if this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

1. *Reorient / Relocate the receiving antenna.*
2. *Increase the separation between the equipment and receiver.*
3. *Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.*
4. *Consult the dealer or an experienced radio/TV technician for help.*

CAUTION: Changes or modifications not expressly approved by the manufacturer responsible for compliance could void the user’s authority to operate the equipment
