

Mr. Frank Coperich  
Re: FCC ID: 06E713050B; Securicor Wireless  
731 Confirmation Number TC99431  
Correspondence Reference Number 1115

Per referenced inquiry:

1. The transceiver uses PLL technology based on EPROM frequency selection. The EPROM can only be programmed by a programmer available only to authorized technicians. The equipment can only be operated on internally preset discrete frequencies authorized by applicable license.
2. Noted.
