Re: Form 731 Confirmation Number: EA98398

Dear Ms. Hawkins:

I am writing to formally request more time to finish our application for FCC Certification. The problem has arisen because our testing center initially told us our product does not need certification. It has now been determined that it indeed does require certification. We therefore will get to you as soon as possible the schematics that you asked for, as well as the new testing report. Thank you for your consideration.

Sincerely,
