ABOUT BLUETOOTH

You can use Bluetooth to wirelessly connect devices and accessories to other compatible devices, such as phones. Devices do not need to be in direct line-of-sight, but they must be within 10 meters. This device is compliant with Bluetooth Specification 3.0.

Read this user manual carefully before using the product. Also, read the user manual for the device that is used to connect to this speaker.

a. for FCC 15b devices (15.105)

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- ☒ Reorient or relocate the receiving antenna.
- ☒ Increase the separation between the equipment and receiver.
- ☒ Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- ☒ Consult the dealer or an experienced radio/TV technician for help.

b. FCC Part 15.21 information for user

You are cautioned that changes or modifications not expressly approved by the party responsible for compliance could void your authority to operate the equipment.

c. FCC Part 15.19

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference and (2) this device must accept any interference received, including interference that may cause undesired operation

NOTICE: Please read this user manual and the user manual of the compatible device before using this product.

WARNING: This product may contain small parts. Keep out of the reach of small childrens.

Charge the battery

1. Connect the charger cable to your AC adapter to a wall outlet.
2. Connect the charger cable to the charger connector on the speaker.
3. When the battery is fully charged, the charger indicator will go off.
4. When the battery is fully charged, first disconnect the charger from the speaker, then from the wall outlet.

You can also use a compatible USB cable to charge the battery. Charging may not work if you connect through a non-powered USB hub. You can only use the USB connection to charge the battery.
