

Responses to Non-Conformities FCC ID: O6XLTG500 (Ref # E01-000009-1)

---

Item 1: Please upload the operational description and block diagrams to their appropriate exhibit. The confidentiality letter will have to be updated.

Files uploaded separately January 30, 2001.

Item 2: The device appears to be large enough to fit the statements required in 15.19. Please explain/provide.

Customer comments: The labels we have will have to be redesigned and as you know we are in the process of making new moulds and labels. Our technical director in the mean time suggested that we add the following attached label - even if we need to stick it to the other side of the tag. A new label has been uploaded. This label will be placed on the back of the unit.

Item 3: Please provide a copy of the installation and operating instructions that will be furnished to the user.

The Product Information Sheet is the only manual that will be provided with the transmitter tag.
