## 2.0 **Mandatory Labeling and Operators' Manual Information and Shipping Documents**

### 2.1 **Label**

The illustration on the next page shows the sample FCC label with the appropriate wording. Note the letters "EMI" on the label, which abbreviate "Electromagnetic Interference". Organizations like the Federal Communications Commission and their respective limits are listed on the label.

Also notice the letters "NRTL", which abbreviate "Nationally Recognized Testing Laboratory" as recommended by OSHA and the National Electrical Code for the United States. For Pulver Laboratories product Certification labels used for safety Certification, the phrase "SAFETY" appears on the label. Safety Certifying organizations like Pulver Laboratories are listed on the label adjacent to the testing standards used during equipment evaluation.

A rough sketch of the label location is shown below.

## 2.2 Operators' Manual Information

2.2.1 Insert the following information directly into the operators' manual to meet the requirements of product safety and Radio Frequency Interference (RFI) rules and regulations.

### **WARNING**

Use a single shielded power cord to connect AC power to the host computer.

2.3 **FCC User Information** - Place the following statements in the front of the operators' manual so that the user of the EUT is aware of its interference potential. If available, provide additional information to the user about corrective measures.
