

The top view shows the main green PCB with a silver metal housing at the top. It features two large silver electrolytic capacitors, a circular silver component, and various electronic components. The text 'C00WI48AC101-0 ES' and 'P001' is visible. A small white label with '005' is present. The bottom view shows the reverse side of the PCB, featuring a large silver metal housing, several electrolytic capacitors, and electronic components. The text 'C00WI48AC101-0 ES' and 'P001' is visible. The side view shows the module's profile, including a black connector on the left and a silver metal housing on the right. The text 'C00WI48AC101-0 ES' and 'P001' is visible.

9) MAIN PCB of SC-980 (Solder Side View)
