Subject: FCC 15.247, RSS-247, and RSS-Gen Class 2 PERMISSIVE CHANGE for Inventek Systems, Models ISM43362-M3G-L44-E and ISM43362-M3G-L44-U module, FCC ID: O7P-362 and IC: 10147A-362

This Permissive Change letter has been generated on behalf of Inventek Systems, to document the following changes to their currently certified product models ISM43362-M3G-L44-E and ISM43362-M3G-L44-U.

Inventek Systems is adding the following external antenna to be used with this radio module:

MFG: Zodiac Part Number: B0023200  
Gain: +5.0 dbi  
Type: Omni Directional

The addition of the external antenna does not affect the transmitter circuitry; this portion of the product remains identical to the originally tested product.

To show continued compliance with the relative subpart, the product was re-evaluated for radiated intentional emissions per 15.247; no other testing was deemed necessary.

The test report shows that the product continues to meet the applicable subpart for CFR 47, Part 15.247 and RSS 247.

Best Regards,

A handwritten signature in purple ink that reads "Sandi McEnery".
