**Federal Communications Commission
Equipment Authorization Branch
7435 Oakland Mills Road
Columbia MD 21046**

Ref: FCC ID: O87-20620150 - Extended Frequencies Justification

To Whom It May Concern:

We, Sea Air and Land Communications Ltd, would like to submit the following justification to show the frequency range of 150.8 MHz to 173.4 MHz on the Grant of Equipment Authorization under Part 90 for FCC ID: O87-20620150

Per the FCC's KDB634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it is a violation of the FCC Rules if this device operates on unauthorized frequencies.

This radio is intended for use by federal agencies, public agencies, emergency services, as well as commercial, business, and industrial services.

Additionally, it will be used in other countries that accept the FCC Grant of Equipment Authorization.

This radio complies with 47 CFR Part 90.203(e) in that the operator cannot program and transmit on frequencies, other than those programmed by the manufacturer, service or maintenance personnel, using the equipment's external operation controls.

It is noted that the FCC rules would be violated if this radio is programmed to operate on frequencies outside of FCC Part 90 Frequency Bands for users other than the Federal Government.

Yours sincerely,

A handwritten signature in black ink, appearing to read "Alan Jacks", is written over a circular stamp that is partially visible.
