To whom it may concern

LIMITED MODULAR APPROVAL – FCC ID: O8712865

In accordance with KDB 996369 D01 Modular Equip Auth Guide the details below are listed with reference to the application for Limited Modular Approval for FCC ID:O8712865.

The compliance with the relevant sections of FCC 15.212 are listed below:

- (i) The 12-86-5000 centers around the operation of a SILABS 4432 RF TX/RX highly integrated RF transmitter
- (ii) The 12-86-5000 supports up to five inputs, each of which can be programmed and cannot be over modulated.
- (iii) The 12-86-5000 is powered either by an internal 3 VDC CR2032 coin cell battery or an external 3VDC supply which is filtered and regulated via on-board circuitry
- (iv) The antenna is incorporated internally on the PCB
- (v) The 12-86-5000 is battery powered and can be tested in a stand-alone configuration
- (vi) The FCC identification number is on the label attached to the board
- (vii) Operating instructions and requirements are included with the application
- (viii) The modular transmitter complies with 47 CFR Part 90, section 90.217

Yours faithfully
