

7. FCC/IC Notice

This device complies with part 15 of FCC Rules and Industry Canada's licence-exempt RSSs. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Le présent appareil est conforme à la partie 15 des règles de la FCC et aux normes des CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) l'appareil ne doit pas produire de brouillage, et (2) l'appareil doit accepter tout brouillage subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This notice shall display a conspicuous location on the end products as will be described in "9 End Product Labeling".

When the end product is so small or for such use that it is practicable to place the statement, it shall be placed in a prominent location in the instruction manual or pamphlet supplied to the user or, alternatively, shall be placed on the container in which it is marketed.

8. FCC/IC Caution

Changes or modifications not expressly approved by the party responsible for compliance, Aplix IP Holdings Corporation, could void the user's authority to operate the equipment.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter.

This caution shall be placed in the user's manual or instruction manual of the end product.

9. End Product Labeling

When this module is integrated into an end product, the end product must display an exterior label with FCC ID/IC and the FCC/IC notice as in “7 FCC/IC Notice”.

The format of FCC ID/IC is defined as a single line and OEM can choose either of the followings.

FCC:

- *Contains Transmitter Module FCC ID: **08CJM1L2L***
- *Contains FCC ID: **08CJM1L2L***

IC:

- *Contains Transmitter Module IC: **10551A-JM1L2L***
- *Contains IC: **10551A-JM1L2L***

10. End Product User Manuals

The end product's user manual should include the following statements depending on type of the product.

Mobile Device:

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that it deemed to comply without maximum permissive exposure evaluation (MPE). But it is desirable that it should be installed and operated keeping the radiator at least 20cm or more away from person's body

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation de l'exposition maximale autorisée (MPE).

アプリックス IP ホールディングス株式会社

<http://www.aplix-ip.com/>

Cependant, cet équipement doit être installé et utilisé en gardant une distance de 20 cm ou plus entre le dispositif rayonnant et le corps humain.

Portable Device:

This equipment complies with FCC/IC radiation exposure limits set forth for an uncontrolled environment and meets the FCC radio frequency (RF) Exposure Guidelines and RSS-102 of the IC radio frequency (RF) Exposure rules. This equipment has very low levels of RF energy that are deemed to comply without testing of specific absorption ratio (SAR).

Cet équipement est conforme aux limites d'exposition aux rayonnements énoncées pour un environnement non contrôlé et respecte les règles d'exposition aux fréquences radioélectriques (RF) CNR-102 de l'IC. Cet équipement émet une énergie RF très faible qui est considérée conforme sans évaluation du débit d'absorption spécifique (DAS).

The device types are defined as follows.

Mobile Device	Products operated in the distance more than 20 cm from person's body.
Portable Device	Products operated within 20 cm from person's body.

Since this module is not sold to general end users directly, there is no user manual of module.

For the details about this module, please refer to the specification sheet of module.

This module should be installed in the host device according to the interface specification (installation procedure).
