March 5, 2020

TO WHOM IT MAY CONCERN

We, Shin Heung Precision Co., Ltd., confirm that the WLAN module installed in our devices, SK-163, SK-363 and SK-563, is electronic and electrically identical to the original Realtek certified module under FCC ID: TX2-RTL8723BE granted in 05/08/2013.

The only difference is that BT/BLE are disabled by software permanently when installing to our device, SK-163.

The certified WLAN module's original test report (FCC ID: TX2-RTL8723BE, report no: FR322105AA) is submitted as a part of submission package for our devices SK-163, SK-363 and SK-563, FCC filing under FCC ID: O8HSK-163, and all antenna port tests results will be reference to this module's original test report.

Sincerely,

Byoungjo Ha / Chief Engineer
