- 2) "Wireless Earphone" let you talk privately, and freely.
- 3) "External Speaker" has excellent effect of voice output.
- 4) 180 degree direction switchable.
- 5) With volume control function.
- 6) With LED power indicator.
- 7) With LED earphone charging indicator.
- 8) With LED earphone in use indicator.
- 9) With On/Off button for earphone, and its charging.

Operations:

- 1) Insert the DC plug into the car cigarette lighter socket, and make sure the "Red LED" indicator for power is on.
- 2) Set the wireless earphone in the unit for charging for a minimum of 10 minutes for the first time or whenever it runs out of the power. Push on the button on earphone to start charging, and make sure the "Orange LED" indicator for charging is on.
- 3) Attach the "Microphone Clip" onto the speaker of your mobile phone. And position the mobile phone properly, the best distance is less than 1.0 meter from user. And do not face the mobile phone to the unit too close in order to avoid the echo caused.
- 4) To use the wireless ear phone push the button at side to release it from the base, and hook it onto your car properly. Push on the button on earphone to start receiving , and make sure the "Red LED" indicator on the earphone is on. (Note: remember to push off the button on earphone whenever getting off your car, and has turned off the car engine in order to keep power.)
- 5) Adjust the volume on the mobile phone to comfort level for use of the earphone.
- 6) Adjust the volume on the side of the unit to the midpoint after dialing. Or any level you feel comfortable for use of the external speaker.
- 7) Your voice is transmitted through the microphone on your mobile phone. Your voice will be heard more clearly when you are directly facing the microphone of your mobile phone.
- 8) The other party's voice will be heard through the wireless earphone. Or the external speaker.

Specifications

Consumption Current	: 50mA ~ 100mA
Wireless Effective Range	: Within 2M
Wireless Generating Current	: 10mW
Frequency	: 40 ~ 49MHz

FCC ID : 08XHFURF

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions : (1) this device may not cause harmful interference received, including interference that may cause undesired operation.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

*Reorient or relocate the receiving antenna.

*Increase the separation between the equipment and receiver.

*Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

*Consult the dealer or an experienced radio/TV technician for help.

Notice: The changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
