Item 1: The confidentiality letter states that the following documents be held confidential:

- DC Power Cable 4-2340
- Base Station Antenna 4-2215

Something may have happened during the uploading period, please provide.

Provided November 10, 2000

- Item 2: Please provide a users manual. Please make sure to include all appropriate statements (15.27, 15.105, etc.).

Provided November 10, 2000

- Item 3: Please provide an updated label with the FCC ID displayed in the following format:

FCC ID: O9NPWRSCAN-BS

In accordance with §2.925 Identification of equipment.

(a) Each equipment covered in an application for equipment authorization shall bear a nameplate or label listing the following:

(1) FCC Identifier consisting of the two elements in the exact order specified in §2.926. The FCC Identifier shall be preceded by the term "FCC ID:" in capital letters on a single line, and shall be of a type size large enough to be legible without the aid of magnification.

EXAMPLE: FCC ID: XXX123

XXX - Grantee Code

123 - Equipment Product Code

(2) Any other statements or labeling requirements imposed by the rules governing the operation of the specific class of equipment, except that such statement(s) of compliance may appear on a separate label at the option of the applicant / grantee.

Provided November 10, 2000

Item 4: Please provide a photo showing label placement. Also, the device appears to be large enough so that the following statement can be placed on it:
“This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.”

Please update accordingly.

Provided November 10, 2000

Item 5: Please state how this device meets the antenna requirements as set forth in Section 15.203. The information provided is confusing. The test report states the following:

“The maximum ERP of this transmitter was measured at a test distance of three meters, utilizing all three channels. This measurement was made with the EUT's integral antenna, for there is no provision for connecting an external antenna.”

The Operation Description states the following:

“Antenna – It is required as per the PRD, to have an internally designed antenna for the hand held **and it is acceptable to use an external antenna for the base station.**”
