American Telecommunications Certification Body, Inc.  
6731 Whittier Avenue  
Suite C110  
McLean, VA 22101

To Whom It May Concern:

iSECUREtrac Corp. agrees that the attached statement will be included in the final version of the manual, informing the user of his and the telephone company's rights and obligations.

A handwritten signature in black ink, appearing to read "David Sempek".

Mr. David Sempek  
*Chief Technical Officer*  
(402) 537 - 9834  
5/22/2003

## **User Manual Statement**

### **FCC Requirements**

1. The Federal Communications Commission (FCC) has established rules that permit this device to be directly connected to the telephone network. Standardized jacks are used for these connections. This equipment should not be used on party lines or coin phones lines.
2. If this device is malfunctioning and is causing harm to the telephone network; this device should be disconnected until the source of the problem can be determined and until repair has been made. If this is not done, the telephone company may temporarily disconnect service.
3. The telephone company may make changes in its technical operations and procedures: if such changes affect the compatibility or use of this device, the telephone company is required to give adequate notice of the changes. You will be advised of your right to file a complaint with the FCC.
4. If the telephone company requests information on what equipment is connected to their lines, inform them of:
  - a. The telephone number to which this unit is connected. End user phone number
  - b. The ringer equivalence number. 0.3
  - c. The USOC jack required. RJ 11
  - d. The FCC Registration Number. **XXXXXX**
  - e. FCC ID number OAM2100\_433

Items (b) and (d) are indicated on the label. The Ringer Equivalence Number (REN) is used to determine how many devices can be connected to your telephone line. In most areas, the sum of the REN's of all devices on any one line should not exceed five (5.0). If too many devices are attached, they may not ring properly.

### **Caution to the user**

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment

### **Service Requirements**

In the event of equipment malfunction, all repairs should be performed by our Company or an authorized agent. It is the responsibility of users requiring service to report the need for service to our Company or to one of our authorized agents.
