Repeat to switch back to the first call.</p>	<p>LED Indicator</p> <p>There is an LED light in the middle of the front Bluetooth Speaker. Below are what the LED's various displays indicate.</p> <p>LED off - Power OFF</p> <p>BLUE - Power ON</p> <p>Flashing BLUE/RED - Pairing mode</p> <p>Quick Flshing Red with Tone Sound - Low Battery Level</p> <p>Flashing RED - When Charging</p> <p>Flashing BLUE - Device Paired</p> <p>Set-UP and Pairing via Bluetooth For Music Playback and Hands-free Calling</p> <p>NOTE: unplug-100 Music Bluetooth Speaker can pair with most Bluetooth 2.0 devices. Pairing may vary by device. Consult your Bluetooth device's manual for pairing instructions.</p>	<p>Pairing with Bluetooth devices</p> <p>Pairing occurs when two Bludtooth devices communicate with each other and establish a connection. A record of information about this connection is then stored in the memory of each device. Once you pair a device with the unplug-100 speaker, you should not have to pair it again.</p> <p>The unplug-100 speaker can pair with up to six Bluetooth devices. However, it can only connect to, and play audio from one device at a time.</p> <p>To begin pairing with a Bluetooth device</p> <ol style="list-style-type: none"> 1. With the Bluetooth device and the unplug-100 speaker both turned on, Touch and hold the  button (Fig.1) on the speaker for four seconds to make the speaker discoverable. The LED indicator on the unplug-100 speaker LED indicator Flashing Red and Blue. approximately once every second to show that the speaker is discoverable. 	<p>5. Windows 7 will guide you through set-up. If Prompted, the Passcode is 0000.</p> <p>6. Be sure your PC's audio output and mic input are set to unplug-100 Music then clickContinue."</p> <p>Your PC is now ready to use unplug-100 Music Bluetooth Speaker to play music and for hands-free online chat.</p> <p>If you have a Bluetooth equipped Mac, please consult your owner's manual for pairing instructions.</p> <p>NOTE: Some audio delay may occur when watching video playback, causing audio on video to be "out of sync" when connected via Bluetooth.</p> <p>Use a 3.5mm minijack cable for optimal performance with video playback.</p> <p>See section Connecting to device via 3.5mm "AUX" input.</p> <p>NOTE: Always be sure to switch unplug-100 Music Bluetooth Speaker to the "OFF" position when not in use to save battery charge.</p>
---	--	--	--

<p>NOTE: Not all PCs support all Bluetooth profiles needed for full functionality with unplug-100 Music Bluetooth Speaker. Your PC may need additional Bluetooth drivers or profiles installed. Please consult your owner's manual. If your PC does not support needed Bluetooth profiles, you can connect with a 3.5mm to 3.5mm minijack cable and listen to music through unplug-100 Music Bluetooth Speaker. See section Connecting to a device via 3.5mm "AUX IN" input.</p> <ol style="list-style-type: none"> 1. Put unplug-100 Music Bluetooth Speaker into pairing mode. 2. On your PC, click "Start" then click "Control Panel". 3. Under "Hardware and Sound" click "Add a device". 4. The Add a Device Wizard will pop up. You should see an icon for "unplug-100". Click on it and then click "Next". 	<ol style="list-style-type: none"> 2. Set your Bluetooth device to "discover" the unplug-100 speaker, then locate the Bluetooth Device list. 3. From the Bluetooth device list, select the device named "unplug-100". 4. If your device asks for a passkey, enter digits 0000 (four zeros) and press OK. Some devices also ask you to accept the connection. <p>Your Bluetooth device indicates when pairing is complete. The unplug-100 speaker indicates pairing is complete when the LED indicator turns flashing blue with tone sound.</p> <p>To connect a device</p> <p>To connect a previously paired device, press the Bluetooth button on the unplug-100 speaker. The Bluetooth indicator on the speaker flashes on and off approximately twice every second until the device connects. Then the indicator stops flashing and remains steadily on when the speaker and device have successfully connected.</p>	<p>70.0 mm</p>	<p>To pair additional devices</p> <p>With the Bluetooth device and the unplug-100 speaker both turned on, press the  button on the speaker for four seconds to make the speaker discoverable again. Then follow steps 2-4 on page 7.</p> <p>The unplug-100 memory can hold up to six paired devices. You can pair more than six devices, but the memory will never contain more than six. When the memory is full with six devices and an additional device is paired, the least recently used is deleted from memory and replaced by the newly paired device.</p> <p>Clearing memory</p> <p>To clear the unplug-100 Speaker memory of all devices, touch and hold both Vol. Up and Vol. Down (fig.2) button on the speaker (about 5 seconds) until LED indicator flashing Red and Blue to Pairing mode (start Pairing for new device).</p> <p> (fig.2)</p>	<p>The unplug-100 speaker clears all Bluetooth devices from its memory and then becomes discoverable.</p> <p>Reconnection in Event of Bluetooth Disconnection</p> <p>If by any reason your device and unplug-100 Music Bluetooth Speaker are disconnected, such as out connection distance or powering off, they can be re-connected by:</p> <p>Select "unplug-100" from your device for reconnection.</p> <p>NOTE : After pairing, unplug-100 Music Speaker will also "auto-connect" with compatible devices that auto-search and re-connect with the last connecting device if disconnection should occur.</p> <p>Pairing with Bluetooth Equipped PC(Windows 7)</p> <p>You can pair unplug-100 Music Bluetooth Speaker with most Bluetooth equipped PCs to music or for use as a speaker phone with Skype and other online video/voice chat clients.</p>
