

CONFIDENTIALITY REQUEST LETTER

UC-UHF

UC-UHF TRANSMITTER TECHNICAL DATA

Pursuant to FCC 0.457(d) and 0.459 of the FCC Rules long-term confidentiality is requested due to the fact that the applicant, UpCom, considers certain information to be submitted as trade secret information. Specifically, the schematics and parts lists submitted as exhibits for type certification for the above transmitter are not normally available to anyone outside of company employees. The specific files needing confidentiality are identified as:

Exciter Schematics.pdf
PA Combined Schematics file.pdf
Exciter Parts List.pdf
SCA PA parts list.pdf

The company has gone to great expense to develop the equipment and they could be financially harmed if another competitor were to copy the products using the schematics and parts list information and make them available for sale. The parts list and schematic information contained within the exhibits submitted with this type certification application is not supplied with customer documentation. Because of the nature of the schematics and parts lists, redacted documents are not possible. At a minimum, a period of 5 years is necessary for confidentiality for these documents.

Regards,
