

Hi-G-Tek
IG-ST-50-433

The image shows a Hi-G-Tek IG-ST-50-433 sensor unit mounted on a wooden picnic table. The sensor is a small, black, rectangular device with a vertical pole extending from its top, which holds a clear, dome-shaped protective cover. The table is situated on a paved area with a circular metal base plate. In the background, there are trees, a dirt path, and a building under a clear sky.
