To whom it may concern:

We, the undersigned, hereby authorize PCTEST Engineering Laboratory, Inc., to act on our behalf in all matters relating to applications for equipment authorization, including the signing of all documents relating to these matters. Any and all acts carried out by PCTEST Engineering Laboratory, Inc. on our behalf shall have the same effect as acts of our own.

We also hereby certify that no party to this application is subject to a denial of benefits, including FCC benefits, pursuant to Section 5301 of the Anti-Drug Abuse Act of 1988, 21 U.S.C. 853(a).

Sincerely,

Don Heo May 02/01

FCC Part 24 Certification**

Request for Confidentiality

Gentlemen :

**In accordance with 0.459 of CFR 47, TELSON Information & Communications Co., Ltd hereby
requests confidentiality of the Block Diagrams, circuit Diagrams, Circuit Description, Parts List,
Tune-up Procedure, Operational Description attachments for the subject application.**

**These documents contain detailed system and equipment description and related information about
the product in which TELSON information & Communications Co., Ltd considers to be proprietary,
confidential, and a custom design and, otherwise, would not release to the general public. Since this
design is a basis from which future technological products will evolve, TELSON Information &
Communications Co., Ltd considers that this information would be of benefit to its competitors, and
that the disclosure of the information in these documents would give competitors an unfair
advantage in the market.**

Sincerely,

Don Heo May 02/01

SUBJECT: Telson Information & Communications Co., Ltd.
FCC ID: OBAMT-8000
FCC E911 Requirements Per §22.921

Gentlemen:

Telson Information & Communications Co., Ltd. hereby certifies that the analog cellular telephone (FCC ID: OBAMT-8000), using the Automatic A/B Roaming – Intelligent Retry method, meets the E911 requirements specified in Section 22.921 of the FCC Rules. This procedure recognizes when a “9-1-1” call is made and, at such time, will override any programming in the mobile unit that determines the handling of a non-911 call and permit the call to be handled by other analog carriers.

Should you have any questions or comments concerning the above, please contact the undersigned.

Sincerely,

Don Heo May 102/01

AFFIDAVIT FOR ESN PROTECTION ON CELLULAR MOBILE TELEPHON

We hereby certify that the Handheld Portable Cellular Telephone (FCC ID : OBAMT-8000) is so designed that it complies with all the requirements for ESN protection specified in Section 22.919 of the FCC Rules.

- a) The transmitter in service has a unique ESN.
- b) The ESN host component is permanently attached to a main circuit board of the mobile transmitter and the integrity of the unit operating software cannot be altered. The ESN is plated from fraudulent contact and tampering. The ESN is encoded using multiplication by a polynomial and the ESN data programmed in the memory with other information.
- c) The ESN is factory-set and cannot be altered, transferred, removed or otherwise able to be manipulated. Cellular mobile equipment is specifically designed such that any attempt to remove, tamper with, or change the ESN chip, its logic system, or firmware originally programmed by the manufacturer will render the mobile transmitter inoperative.

Sincerely,

Don Heo May 2/01
