  - Receiving/Sending Message
- Menu

## Precautions with PCM-1930

### Cautions in Use

- Because PCM-1930 operates only in the state where management program has been already running, be sure to run the management program before using PCM-1930. (The management program is included in the CD provided.)
- Calling, Internet and fax service can be used only after the message "Welcome to Sprint.com" is displayed in the PCM-1930 management program.
- Be sure to follow the following procedures when using PCM-1930:

- To start: First, insert PCM-1930 in the PCMCIA slot and then, use PCM-1930 by running the management program.

- To end: First, end the management program and then, remove PCM-1930 from the PCMCIA slot.

- Removing Sprint from the slot during the operation may cause computer down or damage of PCM-1930. Accordingly, be sure to follow the above procedures to prevent such problems.
