※ All warranty information, product features and specifications are subject to change without notice.

About the tablet

Keys and interfaces on machine surface have functions shown below:

There are some function keys located on the machine surface.

Power key: long press to turn on/off the Tablet. When the tablet was turned on, user can turn on/off the screen by

short pressing this key.

Esc key: press to return the previous screen.

Vol+/Vol-:adjust volume.

Basic Operations

- **How to Power On/Off the tablet?**

To power on/off the tablet, please press power key and hold for 3S. This period will need several seconds, please wait patient.

- **How to turn on/off the LCD?**

After powering on the tablet, if you are not watching video, you can short press power key to turn off the LCD to save power. To turn on the LCD, please short press power key again.

Note: The screen is locked also when the screen is turned off, to unlock the screen, please pull the lock icon to unlock icon .

- **Touch & type**

Use your fingers to manipulate icons, buttons, menus, the onscreen keyboard, and other items on the

touchscreen. You can also change the screen's orientation.

To select or activate something, touch it.

To type something, such as a name, password, or search terms, just touch where you want to type. A

keyboard pops up that lets you type into the field.

Other common gestures include:

a) Touch & hold: Touch & hold an item on the screen by touching it and not lifting your finger until an action occurs. For example, touching an icon on home screen

and hold it, when the delete icon  is shown on the screen, dragging the selected icon to this icon can delete it from the home screen.

b) Drag: Touch & hold an item for a moment and then, without lifting your finger, move your finger on the screen until you reach the target position. For example, you can drag to reposition shortcuts on the Home screen.

c) Swipe or slide: Quickly move your finger across the surface of

the screen, without pausing when you first touch (so you don't drag something instead). For example, you can slide a Home screen left or right to view the other Home screens.

d) Double-tap: Tap quickly twice on a webpage, map, or other screen to zoom. For example, doubletap a webpage in Browser to zoom in, and double-tap again to zoom out.

e) Pinch: In some apps (such as Maps, Browser, and Gallery), you can zoom in and out by placing two fingers on the screen at once and pinching them together (to zoom out) or spreading them apart (to zoom in).

f) Rotate the screen: On most screens, the orientation of the screen rotates with your device as you turn it. You can change this Display setting.

Related settings

Settings > Device > Display

- **How to reset the tablet?**

If your tablet cannot response to any function key, please use pin to press the reset button in the reset hole to reset the tablet.

- **How to save power?**

The battery icon on the screen shows the rest volume of electricity. To save the power, in system setting interface, please set Brightness and Sleep to a reasonable level

- **How to charge the tablet?**

Please charge the tablet timely before the battery icon shows blank.

Troubleshooting

- The tablet cannot be turned on.

Please charge it via the DC charger to check if the battery is low.

If not, then please reset the tablet.

- **No sound can be heard from the earphones.**

1. Check if the volume is set as 0. Adjust the volume as required.
2. Check the volume of the file attempting to be played.
3. Confirm the earphone is properly connected.

- **Noise through earphones.**

1. Check if the earphone plug is clean, foreign particles can cause static to be heard through the earphone during playback.
2. Check if the music file is damaged. Confirm by playing other music. The damaged file might create serious noises or voice dithering.

- **Incorrect language displayed.**

Please make sure that you have selected the correct language.
Set language in (Settings) => (personal) => (Language & input)

- **Files cannot be downloaded.**

1. Make sure the proper connection between computer and tablet.
2. Check if the memory is full.
3. Check if the USB cable is damaged and replace if necessary.

- **Audio files not playable.**

This tablet cannot play audio files that are copy protected.

Please ensure that only files that contain no copy protection are transferred to the tablet.

- **Video files not playable.**

Please check that the video files transferred to the tablet are in the correct size and format. Some files may need to be re-encoded to be played on this tablet.

- **Fail to open the web page.**

Please check whether successfully create the Wi-Fi connection.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

For a Class B digital device or peripheral, the instructions furnished the user shall include the following or similar statement, placed in a prominent location in the text of the manual: NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna. 33
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
