Re:- FCC ID: OCTOEM-MSR1

Dear Sir or Madam,

Please find attached electronic files regarding the above submission. The prior filing had a file named "Radio Test Report" which should be disregarded (deleted) and replaced with the following (attached) files in pdf format "Exhibit 12 (signatures)" and "Exhibit 12 r11038-4876".

The replacement is due to a variety of formatting errors. Please note that the "signatures " file shows the relevant original report pages that have original signatures. This only indicates a total of 29 pages in that document due to a number of additional appended pages that do not have individual page numbering. When viewing the "r11038-4876" file this is entirely electronically generated with extra pages inserted to take the additional electronically scanned appended pages that changed the page count to a total of 40 but is without original signatures.

Please do not hesitate to contact me if I can be of any further assistance.

Yours faithfully,  
For TRL EMC Ltd.

Robert Parry  
Snr. Radio Engineer
